EDUCATION

Ateneo de Manila University

Expected May 2028

Bachelor's of Science in Computer Science

EXPERIENCE

Product Engineer, Agent Skills, Memory, & Integrations

May 2026 – Present — San Francisco, CA

ByteSpace — Full-time, Remote

- Owned delivery of 8 Bot0 improvements in under a month across agent workflows, memory, and integrations
- Accelerated one of the platform's highest-leverage product areas across agent workflows, memory, and integrations
- Shipped 5 integration and workflow reliability improvements in a week, reducing broken connection flows and making end-to-end automations more dependable for users

Software Engineer Intern

Sep 2025 – Present — NCR

NextPay (YC W21) — Remote

- Built and launched a production marketing site, accelerating acquisition experiments with the marketing team
- With 5+ engineers, shipped SME dashboard features for money-movement and onboarding workflows
- Cut manual processing time by 75% on SME dashboard money-movement and onboarding workflows

Head of Product & Engineering

Jan 2026 – Present

Sip & Scale — Hybrid

- Own engineering, architecture, and internal systems for a Gen Z founder community spanning 20+ cities, 50+ events, and 1,000+ builders worldwide
- Own the technical roadmap across the marketing site and internal systems supporting partnerships, operations, and community
- Built a site ranking #1 for branded search queries and driving 600 unique page views

Project Lead and Full-Stack Developer

May 2025 – Dec 2025 — NCR

One Big Match — Hybrid

- Led product, backend, and GTM for an events web app piloted across student communities
- Coordinated a 10-person team across 4 pilot events and 80+ users

AVP for IT Skills and Development

Jul 2025 – Apr 2026

Ateneo Management Information Systems Association (MISA)

- Led a 4-part web development workshop series for 20+ student developers, raising the org's capacity to ship technical projects
- Built an internal registration system that cut event check-in time by 75% across MISA events

PROJECTS

Ateneo Student Tools Suite

Aug 2024 – Present

Personal projects

- **Enlistment Helper:** course search and timetable platform used by 500+ Ateneo students across 3,000+ visits
- **QPI Calculator:** automated QPI tool with 9,600+ sessions, 131,000+ interactions, and #2 ranking on Google for "QPI calculator"

SALBAR

Feb 2026

First Naga Mayoral Hackathon — Top 5 finalist (Naga City LGU)

- Built an offline-first emergency health protocol for disaster and blackout scenarios; finished Top 5 of 200+ teams and was selected for LGU incubation

Hakot

Dec 2025

Ship or Be Shipped Hackathon — 1st runner-up (Build and Ship Philippines)

- Built an AI-powered logistics marketplace connecting farmers and truck drivers to reduce empty backhauls; finished 1st runner-up out of 80+ participants

Hati

2026

Personal project

- Built a bill-splitting and expense-tracking app for shared expenses
- Reached 156 downloads, 200+ completed splits, and 200k+ in tracked volume
